

PROTHEC MULTI-FILAMENT TIE AND CUTTER

3-filament tie for firm hold.
Recommended for vines over 3 years old and fruit trees.
Allows a certain degree of stretch without strangulation.
Degrades in 8-10 months.

Supplied on 350-m rolls. Tie width: 8 mm.

Recommended accessory: PROTHEC CUTTER.

Ties and cuts simultaneously. Simple, robust and practical tool that allows hand tying work to be completed more easily and quickly.
